EUROPEAN UNION CITIZEN/RESIDENT REQUIREMENT

On May 25, 2018, the European lawmakers passed a data protection bill termed General Data Protection Regulations (GDPR) that superseded all prior data protection regulations. The intent and purpose of GDPR is to empower European Union (EU) data subjects and the rights to their data. Each organisation is mandated to formulate and implement systems and controls to safeguard data, not abuse data, and empower data subjects to enforce their rights to their data. Some of these rights take the form of the following:

- Right to be forgotten: the data subject conditional to the laws of a country may request that their data be forgotten totally.
- Right of consent: no data must be processed without the consent of the data subject.
- Right to be notified: the data being processed must be clearly notified and this notification must be explicit
- Right to understand how each data subject's data is being processed: any EU client can make this request, and the business is mandated to respond and walk the client through the process.
